

CUSTOMER SUCCESS STORY

Aberdeen University

Old traditions combined with modern teaching facilities

Challenge

Aberdeen University was looking for a microphone that should be fast to deploy and easy to integrate into existing setups.

Solution

The customer is happy because all expectations are fully met, and the product is kept well up-to-date with software updates.

“We decided to go for the SpeechLine Digital Wireless microphone system because it is a high-quality new product from a trusted manufacturer. It filled a gaping hole in our microphone offering within multiple locations. The product is fast to deploy and easy to integrate into existing setups. In radio frequency saturated areas, the microphones perform very well. All expectations are fully met, and the product is kept well up-to-date with software updates.”

Colin Wylie, Audio Visual Technician, University of Aberdeen
